

# NUCLEAR PHYSICS SYMPOSIUM EXPLORING THE HEART OF MATTER 26-27 September 2014, Chicago

## Topics

Nucleon Electromagnetic Structure  
Parton Distributions in Nucleons and Nuclei  
Nucleon Spin and Quarks Orbital Angular Momentum  
Photo-reactions in Light Nuclei  
Tests of Fundamental Symmetries  
Long-Baseline Neutrino Physics  
Structure of Light Nuclei  
Parity Violation in Electron Scattering  
Nuclear Structure and Dynamics at Short Distances

## Local Organizing Committee

A. Bernstein (Argonne National Lab)  
D.F. Geesaman (Argonne National Lab)  
K. Hafidi (Argonne National Lab)  
R.V.F. Janssens (Argonne National Lab)  
Z. Meziani (Temple University)  
D. Morrison (Argonne National Lab)
